

REMACK CUTS NO CORNERS

MACK'S STATE-OF-THE-ART TESTING LABS

REMACK tests all of our Complete transmissions under load. Something you won't see at a competitor's shop is dyno-testing.

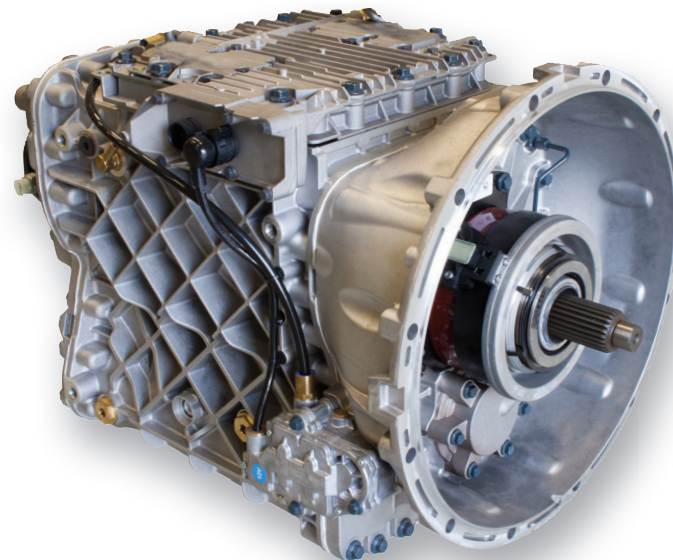

WITH DYNO-TESTING, EVERY COMPLETE TRANSMISSION UNDERGOES:

- Testing to Mack's strict specifications
- Testing through all ranges
- Testing under load
- Top shift cover functionality performance

DYNO-TESTING ISN'T REQUIRED. IT ISN'T A REMANUFACTURING STANDARD. SO WHY DO WE DO IT?

It creates a better product, and we believe it's the right thing to do. And at the end of the day, that's the only motivation we need.

Use Mack factory fill recommended fluid:

Mack mDRIVE Transmission Fluid 75w-80

Part numbers: 9853-120550 (5usg), 9853-120551 (4X1usg)

mDRIVE COMPLETE

YOUR BEST SOLUTION

2 Years / Unlimited Miles

WHEN IT COMES TO REMANUFACTURING TRANSMISSIONS, REMACK PUTS QUALITY FIRST.

REMAK offers you a Good / Better / Best option for remanufactured transmissions. Your authorized Mack Dealer will assess your unit and suggest the best repair option based on the age and type of damage to your truck's transmission.

While all mDRIVE units are built using only Mack parts and remanufactured by Mack-certified, factory-trained technicians, the mDRIVE Complete is your best solution.

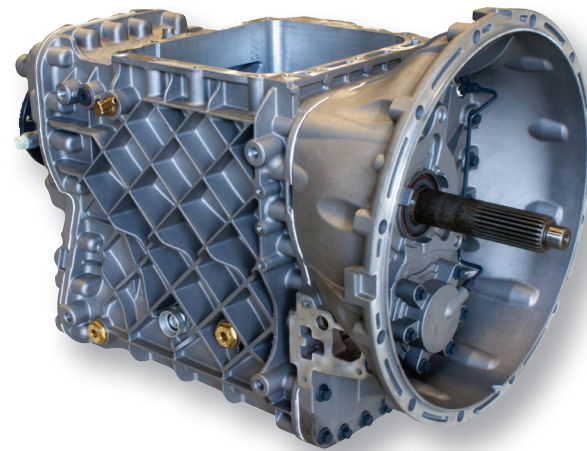

The mDRIVE Complete provides:

- Tested under load
- Transmissions that are installation ready — your truck can be in and out and back on the road in just one day.
- All of the latest engineering updates are included, regardless of model. You get the latest product improvements today.
- Every mDRIVE Complete transmission is dyno-tested to Mack's stringent factory specifications.
- Two-year / unlimited-mileage warranty, parts and labor, when installed by an authorized Mack Dealer.

mDRIVE BASIC

YOUR BETTER SOLUTION

2 Year / Unlimited Miles

YOUR OPTION IN THE "BETTER" CATEGORY IS THE mDRIVE BASIC.

Just like the mDRIVE Complete, the mDRIVE Basic is built using only Mack parts and remanufactured by Mack-certified, factory-trained technicians.

Some assembly is needed with the mDRIVE Basic. The top shift cover, the transmission's electronic control unit and the clutch control actuator are not included.

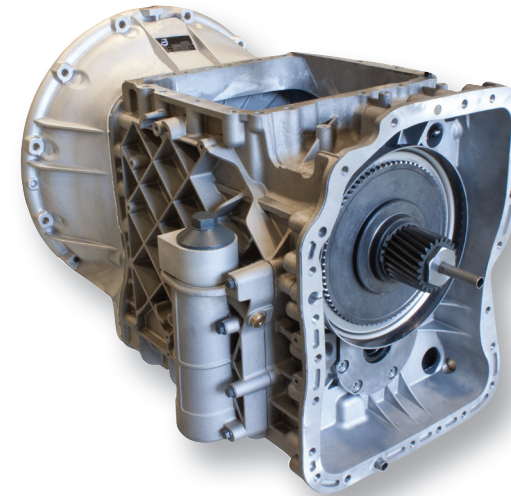

The mDRIVE Basic provides:

- The ability to have your truck in and out in one to two days.
- All of the latest engineering updates are included, regardless of model, except for the parts reused.
- Two-year / unlimited-mileage warranty on the gear box but not on the parts that are locally installed. Includes parts and labor on gear box when installed by an authorized Mack Dealer.

mDRIVE SHORT

YOUR GOOD SOLUTION

1 Year / Unlimited Miles

AN OPTION IN THE "GOOD" CATEGORY IS THE mDRIVE SHORT.

Just like both the mDRIVE Complete and mDRIVE Basic, the mDRIVE Short is built using only Mack parts and remanufactured by Mack-certified, factory-trained technicians.

Some assembly is required with the mDRIVE Short. Not included is the top shift cover, the transmission's electronic control unit, the clutch control actuator and auxiliary range section.

The mDRIVE Short provides:

- The ability to have your truck in and out for service in one to two days.
- All of the latest engineering updates are included, regardless of model, except for the parts reused.
- One-year / unlimited-mileage warranty on the gear box but not on the parts that are locally installed. Includes parts and labor on gear box when installed by an authorized Mack Dealer.

TRANSMISSION RANGE SECTION

YOUR SERVICE SOLUTION

1 Year / Unlimited Miles

YOUR OPTION IN THE SERVICE CATEGORY IS THE TRANSMISSION RANGE SECTION.

Mack® mDRIVE Transmission Range Sections are completely disassembled and cleaned using the latest technology. All critical components and "high wear" items are replaced with new. Machining of remanufactured components undergoes stringent quality control processes using precision machining centers to ensure that performance and reliability standards are met.

The Range Housing Service Kit includes:

- High Range Drum
- Spacer Ring
- Snap Rings
- Speed Sensor
- Output Flange
- Oil Filter
